MISSION STATEMENT

Pacific Coast Sign Supply® is dedicated to providing exceptional customer service and superior technical support to our customers. Being family owned and operated, we understand your needs and are committed to helping you and your business succeed!

WELCOME

When we opened our doors in 1962 as Pacific Coast Paint, sign-makers required just two things: paint and brushes. The sign trade has changed a lot in 60 years - and we've kept up with the **ever-evolving needs of this increasingly technical market**.

Today we're dedicated to providing sign supplies along with education, training and our friendly, knowledgeable (and famous*) customer service. **And we love to save you money.**

- Are you tired of **receiving parts and procedures you don't really need?**
- Would custom-slit materials better **fit your machines & save you time and money**?
- Are you ready to get your questions answered in-person with an **experienced technician** instead of watching training videos?

At Pacific Coast Sign Supply® in Portland, Oregon, our team is ready to meet your needs, answer your questions, and **get you up and producing with your new sign materials and equipment** as soon as possible.

When you order new equipment from us, we don't drop-ship it from the manufacturer. We deliver it fully assembled and don't leave until it's **set up, ready to produce and you know how to use it** - usually within a couple of hours - because we know you probably have a backlog of work waiting to be completed.

PAYMENT

Pacific Coast Sign Supply® offers an open account to approved businesses. We encourage all of our customers to apply for credit regardless of their method of payment so that we may ship and communicate with you effortlessly. We accept VISA, MasterCard, Discover, check, and money orders.

TERMS

Terms are net thirty (30) from date of invoice, with credit approval. Any balance not paid within the sixty days (60) will be assessed a finance charge of 1.5% per month, which is an annual percent of 18%. Accounts with balances 60 days past due will be placed on C.O.D. until the account is made current. A charge of $30.00 will be assessed for all checks returned due to insufficient funds.

SHIPPING & DELIVERY

We have free delivery for orders over $50.00 within the local Portland metropolitan area. Most orders received by 3:00pm PST ship the same day with actual shipping charges (no handling fee) added to the invoice. We try to re-use packaging and shipping materials whenever possible to produce less waste, use less resources, and promote a cleaner environment.

RETURNS

Returns are subject to a 30-day limit with receipt and/or proof of purchase. Restocking fees may apply.

All prices are subject to change without notice. For the most up to date prices, please call.

CREDIT AGREEMENT

All invoices are due Net 30 days from the date of invoice. As a condition of sale, a monthly service charge of 1.5% will be assessed on all accounts not paid within terms. Pacific Coast Sign Supply® may at its sole discretion and without any advance notice cease the further extension of credit. Applicant agrees to pay reasonable attorney's fees and other costs in the event of default. In support of this credit application, the application, the Applicant authorizes Pacific Coast Sign Supply® to obtain personal and/ or business credit reports. All orders will be charged to a credit card unless credit terms have been approved by Pacific Coast Sign Supply® credit department. Credit terms are revocable. In the event payment terms are not honored, the account will automatically revert to charging to a credit card on file, and/or the Customer will be put on "shipping hold". All sales are F.O.B. Portland, Oregon unless specified otherwise when product is ordered. Pacific Coast Sign Supply® reserves the right to deny cancellations or returns. In the event that Pacific Coast Sign Supply® authorizes return of merchandise, the merchandise must be returned in "as new" condition; including (but not limited to): original packing materials, cartons and documentation, within **30 days** of original invoice. Pacific Coast Sign Supply® has the sole discretion to specify these and other conditions for the return of merchandise. Any supplies returned without return authorization will be returned to customer at their expense. **initial** _____

We are here to help your business grow & succeed.

Thank You,

Makenna Reinke

One-Way Vision Film

- 6mil PVC film allows stunning graphics on one side & a clear unobstructed view through glass on the other.
- Allows premium ad placement: can be placed on glass doors at eye level; on buses to create "moving billboards".
- Reduces heat & glare from the sun.
- Enhances privacy & security.
- Easy to print on & install. 2 to 3 year life on vertical surface.
- Creates new, innovative media space without obstructing views.
- Pressure-sensitive adhesive with solid release liner.

50/50

PanoRama by CONTINENTAL GRAFIX

Which ratio? With 70/30 perforation pattern & 1.5-mm holes, **Innova 30** is recommended for small-format window graphics with detailed images that will be viewed from a close distance. When including text in the design, use a font size of 1/2" or larger for **Innova 30** & a font size of 1" or larger for **Innova 50**.

PanoRama Innova™

Liquid Laminates

Clear coatings protect digital prints, vinyl & paint from abrasion, marring, weather & UV exposure while flexible enough for banners. *Painted surfaces* & *vinyl signage* also benefit from liquid lamination. ClearShield is your first choice for all *non-water-sensitive* applications. ClearShield was created using state-of-the-art resins & ultraviolet inhibitors that protect the substrate, ink & the clear coating itself. Use ClearJet on most substrates, including canvas, vinyl (enamel receptive & non-enamel receptive), banners, fiberglass, wood, metal, plastic, & paper. ClearJet is only for water-based inks.

Version	Price	Use on	How to Apply	Compatibility
ClearShield Original water-based	**Gloss** quart $40.95, Gal $126.95 **SG** quart $39.95, Gal $113.95 **Matte** quart $44.95, Gal $126.95	vinyl, banners, fiberglass, wood, metal, plastic, paper, solvent-based inks & most water-based paint systems	spray, pad or foam applicator, roller. Always work with *full, wet coats.*	for non-water-sensitive ink/media combinations
ClearJet Original A2000 Aerosol solvent-based aerosol spray	**Gloss** spray $16.95 **SG** spray $16.95	most substrates, incl. canvas, vinyl banners, fiberglass, wood, metal, plastic, & paper	spray 3" - 6" from the surface, never turn your wrist, spray past the edge of the print & over-lap passes	for dye-based inks & water-sensitive ink/media combinations

We generally recommend the following dry film thickness:
ClearShield Water-based Clears – .7 to 1 mil dry film
ClearJet Solvent-based Clears - .5 to 1 mil dry film
This chart shows you the theoretical coverage at 100% transfer efficiency. We strongly recommend that you test before use. A test will immediately show you incompatibilities, including water sensitivity, ink jet receptive layer *mud cracks,* & ink bleeds. Generally, let the tested material dry for at least 24 hours. Evaluate the adhesion, flexibility & visual appearance. Be realistic in your expectations & simulate the conditions the material will be exposed to.

per gallon	1 mil dry	.5 mils dry
ClearShield (all products)	480 sq. feet	960 sq. feet
ClearJet Type S (FA & Original)	370 sq. feet	740 sq. feet
ClearJet Type BR (FA & Original)	485 sq. feet	970 sq. feet

Frog Juice Clear UV is very glossy, totally synthetic & will not yellow. **Over Digital Prints:** Frog Juice protects most digital & thermal printing from fading, making it a popular liquid lamination. Frog Juice increases color saturation, provides abrasion resistance, & usually doubles the life of the inks from fading. It works over all vinyls as well & slows down shrinkage of calendared films from 3M, Arlon, Mactac & Oracal, as well as prints from the more popular digital equipment such as Roland, Mimaki, Mutoh, Summa, HP & Gerber Edge. **Over Gold Leaf:** Frog Juice works well as a sealer when applied over fully-cured Gold Leaf (as well as painted outlines), however care must be taken to avoid drowning the gold in the size to prevent any reactions. It achieves maximum hardness slowly over a period of 30 days, yet is ready to handle & place outdoors in 30 minutes. Frog Juice is normally thinned with mineral spirits, but can be thinned with naphtha, automotive acrylic enamel reducers & lacquer thinners. Hot thinners can cause problems without proper testing.

10yd $9.95
1yd $1.60

reg R tape
appliTAPE™ tears cleanly with improved wet performance. Same as transferite 6592.

clear AT60n
medium tack Clear Choice™ is priced at paper tape prices, no stretch qualities, exceptionally clear, easily pulls apart with no adhesive delamination if adhesive touches adhesive. Great for Speed Press®.

clear AT75
embossed high tack for textured & matte finish vinyl films. Features air-egress micro tunnels and exceptional lay flat and clarity. Resists tunneling and edge curl. Stays down longer for extended shelf life for ready-to-apply graphics.

premium R tape
Conform series w/RLA lays flat, stays flat and stores longer. (4775) same paper weight & tack as 3M SCPS-2, but without the 3M cost! Superior to transferite 6792.

OraTape HT55
For use with plotter films that use silicone-coated release liners such as ORACAL® 631 Exhibition, ORACAL® 8810 Frosted Glass and ORACAL® 8510 Translucent Etched Glass.

Heat Transfer

ColorPrint Extra by Siser

Use On: 5.3mil
- Nylon
- Leather
- 100% polyester
- All poly/cotton blends

Full color digital printing that is great for difficult fabrics such as leather, nylon, bags & umbrellas.

Application:
- Print and cut design using your choice of software & printer
- Wait 4 to 6 hours for ink to cure & dry before weeding or masking
- Mask image using Easy Mask or HotMask™ to remove the image from backing if necessary for registration
- Preheat garment at temperature of 320ºF for 2-3 sec.
- Position logo on garment
- Heat apply at 320ºF med. pressure for 10 to 15 seconds, peel hot

will only accept solvent, eco-solvent & HP latex ink

ColorPrint S PRINT by Siser

Use On:
- 100% polyester
- 100% cotton
- All poly/cotton blends
- Spandex

3.5mil

A thin film with a soft hand. Matte finish. CPSIA Certified

Application:
- Mask with EasyMask or High Tac
- Preheat garment at temperature of 248ºF for 2-3 sec.
- Position logo on garment
- Heat apply at 248F for 10 -15 seconds, med. pressure
- Peel hot

will only accept solvent & eco-solvent ink

Printable Glitter

Use On: 15.7mil
- 100% polyester
- 100% cotton
- All poly/cotton blends

Printable Glitter requires special masking/transfer tape.

Application:
- Preheat garment at temperature of 305ºF for 2-3 sec.
- Position logo on garment
- Heat apply at 305F for 15 seconds, med. pressure

will only accept solvent & eco-solvent ink

ColorPrint Easy by Siser

Use On: 5.3mil
- 100% polyester
- 100% cotton
- All poly/cotton blends

ColorPrint™ Easy is the easiest weeding & transferring to mask, print & cut material ever! At 300° F transfer temp, you have the ability to apply to special materials that require a lower application temperature.

Application:
- Print and cut design using your choice of software & printer
- No wait for ink to cure & dry before weeding or masking
- Mask image using Easy Mask, Easy Mask High Tack or HotMask™ to transfer the image from backing, squeegee from back side of graphic with our stiff teflon squeegee
- Preheat garment at temperature of 300ºF for 2 to 3 seconds
- Position logo on garment
- Heat apply at 300ºF for 15 seconds, medium pressure
- Peel mask warm (after 5 seconds)

will only accept solvent & eco-solvent ink

Heat Transfer Mask

Heat transfer mask is a "transfer tape" designed for the HTV special high heat process. **EasyMask** is the newest mask from Siser that replaces Evo & ColorMask working with the complete Siser line. **HotMask 375** is a third party mask that does it all and saves you money.

Mask	20"x 5yd	20"x 50yd	29"x 5yd	29"x 50yd
EasyMask regular	$20	$138	$28	$206
EasyMask high tac	$20	$138	$28	$206

Mask	24"x 20yd
HotMask 375	$49

Mask	20"x 5yd	20"x 25yd
Printable Glitter Mask	$19	$85

Teflon Heat Transfer Cover Sheets protect your garment and the upper platen. It is reusable and gives your image a semi-gloss finish. Always have mask, liner or teflon sheet between your graphic and platen. Replace if the sheet becomes creased or wrinkled, this can leave unwanted imprints in your image.

Teflon Sheets	16"x 24"
	$6.95

Siser® High Definition Cutters

These high-definition cutters include amazing features with amazing speed. Fine detail and full-length cuts are no problem for Romeo™. Equipped with high-quality blades & features that are reminiscent of large-format cutters, Juliet™ & Romeo™ leads the way in craft & professional projects. Say good-bye to loud motors & horrible grinding noises that some cutters produce, these cutters are quiet! The sleek touch screen includes Siser® specific presets along with the ability to utilize the built-in registration camera, so you can print and cut with precision and accuracy. Paired with Leonardo™ Design Studio (Windows & MacOS), both cutters have the power to craft possibilities into reality. WiFi & USB connectivity. 24"/sec. maximum cutting speed with 15' max cut length.

Juliet™ 12" Cutter $499

Romeo™ 24" Cutter $699

Equipment

BORDEAUX DIGITAL PRINTink The specially formulated non-corrosive materials increase printheads lifespan & offer adhesion to uncoated media comparable with real-solvent inks. Bordeaux inks provide 100% match to the original OEM color gamut allowing the use of abundant OEM ink profiles.

Direct replacement for Roland EcoSolvent Inks

440ml cart. **NR4** & **PR4**	$75
1 liter bulk **NR4** & **PR4**	$89
TRV2 500ml TR2 style bag	$85
TRV2 500ml green & orange	$85
220ml flush cartridge	$42
1 liter Flush	$65

NR4 = MAX
PR4 = MAX2

GAP Specially manufactured to match the performance & color properties of the Roland TR2 ink. Perfect color matching allows use of your same color profiles with no need to flush lines. Made in the USA by a manufacturer that supplies 160 countries worldwide.

GAP TV2 500ml TR2 style	$89
TV2 500ml CL flush	$45

WARNING!

Roland may deny a claim during the standard or extended warranty period if the failed component has been in contact with any 3rd party ink, including excess ink coating circuit boards. Roland's warranty coverage is contingent on the use of Roland inks. We recommend only using Roland inks during warranty coverage. **Please call us concerning any issues!**

Equipment

Bordeaux Clear UV Adhesion Promoters

enables superior UV ink adhesion, rub & scratch resistance on common plastics and glass

PRGL Glass Primer 500ml	$29.95
PLPP Plastic Primer 1000ml	$88.55

The Bordeaux primers enable UV & UV LED inks to obtain superior adhesion on common glass & plastics, significantly improving the printability of the ink on difficult materials. Furthermore, these primers will also decrease the amount of static electricity on the surface; reduce ink drop deflection and the possibility of new particles being attracted to the substrate during printing.

SEM xXx Adhesion Promoter 77724 Improves UV ink adhesion to plastics, aluminum, steel, glass, chrome & painted surfaces.

Aerosol $17.95
Quart $59.95

A Take-up Everyone Can Afford!

typically OEM take-up systems are priced over $2000

- avoids ink face to face contact of media
- use with any Roland & Mimaki Printer
- use any 2" or 3" core
- install in under five minutes on most Roland printers
- fully CE Certified
- was $399, now $299

Rollover Flatbed Applicator

- Masking
- Laminating
- Mounting

- now anyone in your shop can laminate
- comparable price to most roll to roll laminators
- LED illuminated top optimizes alignment & tasks like weeding
- self healing cutting mat work surface
- applies application tape fast & bubble free
- mount to substrates that are up to 3.5" thick
- less waste than roll to roll laminators
- minimalist design aids in ease of access to work
- side shelves for masking or mounting to oversized media

Cascade Laminators

Santiam Warm Laminator

Santiam series laminators are capable of mounting, laminating up to 62" (1600mm) width prints & applying transfer tape. Upper roller heats to 140° F to reduce laminate silvering during cooler seasons. Pneumatic switch raises upper roller for access for loading & applies appropriate pressure for varying substrate thicknesses. Auto-grip shafts aid easy loading & positioning of materials. Photo eye at pinch point & emergency stop switch mounted on front for operator safety. Laminator will mount graphics on most popular substrates up to a thickness of 35mm or 1.3in. Shipping weight is 445 pounds.

Santiam 63” $4995

save $1000 with printer purchase

Laminate Liner & Graphic Take-up

Equipped with automatic laminate liner stripping & graphic pickup reels with adjustable clutches, bi-directional electric feed, stepless speed regulation up 4”/sec. & foot switch for ease of operation.

Summa S One Series Cutters

The S One Series is the next step in growing your business & was designed with a focus on ergonomics & simplicity in usage. An extremely fast **OPOS** sensor system compensates for any deformation of the print & increases the speed by which registration marks are read. An efficient drag knife offers a pressure of **600 grams**, enabling to cut laminated designs with ease. The sophisticated OPOS Xtra feature allows to process most intricate small sticker jobs with the highest accuracy. Enjoy a fully-automated workflow using **OPOS barcodes**, enabling you to contour cut multiple jobs without intervention.

Summa's **legendary tracking** system allows to process job after job, cutting a complete roll up to 8 meters without reloading. The very durable **titanium** coated grit rollers assure you can work intensively for many years with the best tracking system available on the market. State-of-the-art engineering, sophisticated **GoSign** software & versatile enhancement options have been combined to deliver unmatched performances.

	Stock	Order	*Lease

Summa S3 Class Pro D / Pro T Series Cutters

S Class 3 roll cutters feature first-class engineering & advanced cutting technology. The highly-engineered tangential cutting heads on the S Class 3T Series have a unique **motorized knife**, allowing the cutters to achieve unparalleled accuracy & precision down to the smallest details. Our True Tangential cutting technology even handles heavy sandblasts, paint masks, & reflective materials. The **Smart Object Sorting** feature is designed to select the most optimal starting point for cutting objects, every single time.

The Optical Positioning System **OPOS X** technology senses 4 to 128 marks on a wide range of materials. Enjoy a fully-automated workflow using **OPOS barcodes**, enabling you to contour cut multiple jobs without intervention. The user-friendly software **GoSign** allows you to manage your preferred workflow with great flexibility. The media roll on the cutter can now handle a diameter of 7.8in & supports a roll weight of at least 100 lbs.

Summa's unique **FlexCut** feature creates a perforated cut that allows the material to retain the necessary rigidity to transport through the cutter while remaining easy to break apart into individual pieces. Summa's unique FlexCut feature with unmatched **die-cutting** precision takes cutting technology to the next level.

The S Class 3 TC model's high-precision cutting head can now carry two tools at once. This allows you to **cut & crease** or **cut & draw** without changing tools.

Vinyl Accessories

Vinyl Contour Trimming Tape

WrapCut®
FINE FILAMENT EDGE CUTTING TAPE

- 1/8" width
- Use for most wrap applications
- Conformable around bumpers, door handles, mirrors, etc

WrapCut® Tape
200ft roll $18.95

5 Cut Line Tape
196ft roll $15.95

EXFAK Cut Line tape is a knifeless cutting tape designed for PPF, PU films, vinyl wraps & multilayer applications. It uses a dual-layer construction with an internal cutting filament to create clean trim lines without blades.

ProBond **$43.95**

ProBond Adhesive Promoter
Improves the adhesive bond between vinyl & wrap films to automotive finishes & plastic trims. Allow 15 minutes to dry. 8oz can

3M Vinyl Primer 94

94 Tape Primer used to promote adhesion of 3M adhesive backed vinyls on difficult surfaces or to promote conformability. Shake before using. Allow to dry before applying vinyl.

8oz
$24.95

Liner Knife

- a must have tool for vehicle wraps
- safely slit liner without harming the graphic
- align graphic, tack down exposed strip
- apply graphics from center, up & down or left & right
- works great on all repositionable adhesive media

$14.95

SUMMA OEM T series Tangential		36º	390-551	0	2-10 mil	Double Edge Tungsten Carbide Ideal for thicker material such as reflective	$79 each

Tools

Cleaner/Removers

Reflective Off

Reflective Vinyl Off™ is a safe ready to use product designed to assist in removing the more difficult reflective & specialty pressure sensitive adhesive backed graphics including metalized vinyl, conspicuity tape & other tough reflective vinyl from non-porous substrates OR when external heat cannot be applied. Reflective Vinyl-Off™ works in a broader temperature range than original Vinyl-Off™. Reflective Vinyl-Off™ has been designed to remove vinyl graphics & adhesive simultaneously. Extra care should be taken with Reflective Vinyl-Off™ as it is a much more aggressive product than traditional Vinyl-Off™ & may cause paint damage if not used properly.

Ghost Off

Ghost-Off isn't just for ghosting — it's a surface prep weapon. Built for wrap installers and fleet detailers, it deep cleans and lifts chalky oxidation, dirt, grease, exhaust residue and more to leave a high surface energy finish ready for graphics, film, or paint.

Adhesive Off

Adhesive-Off Pro is engineered for wrap installers, sign shops & fleet professionals who need power without the eye-burning fumes or surface damage caused by harsh chemical strippers like Xylene. It breaks down pressure-sensitive adhesives quickly & cleanly. Works on adhesive residue from vehicle wraps, decals, PPF, & more.

Vinyl Off

Vinyl-Off is a commercial-grade vinyl remover that softens aged vinyl film & paint protection film for faster, cleaner removal on fleet vehicles, trailers, & signage. Safe on OEM paint, glass, & gelcoat.

	quart	gallon	4 gallons
Vinyl Off	$34.95	$114.95	$110.25

Kafka Video This is not an instructional video alone, but a demonstration as well. Kafka shows some of the basic capabilities of his scrolling brushes, use of new products, and demonstrates his style of pinstriping with the intention of inspiring the artistic creativity of the viewer. After witnessing this production, you will be overwhelmed by the desire to participate in this art form and with practice reach your desired level of achievement in this discipline. $39

Sandblasted, Carved & Routed Signs
Made Easy! 90min DVD

3-D signs are profitable and creative, and give you a unique product to sell in a world of flat signs.

Wicked Colors: Water-based, acrylic, multi-surface airbrush paints suitable for any airbrush project. Made with lightfast pigments & a durable resin suitable for exterior applications.
Wicked Detail Colors: Water-based, acrylic multi-surface airbrush paints. Made with sub-micron sized resin particles for atomization through smaller airbrush tip-sizes at low psi settings. Made with lightfast pigments & a durable resin.
4011 Reducer: The go-to, recommended thinner for all Createx paints & clears. 4011 is a water-based thinner used to lower viscosity & promotes faster drying times & complete curing. 4011 is generally added 5% - 10% per volume to paint.
4030 Balancing Clear: Water-based, urethane clear used as flow & adhesion enhancer (added ~ 10% per volume) to Createx paints & carrier for candy2o.
4040 Bleed Checker: Water-based, acrylic-aliphatic urethane clear for application over candy2o to prevent dyes from bleeding into top-coated colors.
4050 UVLS Gloss Clear: Water-based, acrylic aliphatic polyurethane clear. Has 3 functions: **1)** architectural-grade clear for use as top-coat over any Createx paint for indoor & outdoor paintjobs, **2)** adhesive primer direct to metal, plastic, wood & more & **3)** carrier for candy2o
AutoBorne Sealer: Water-Based Acrylic Primer that is a starting base for any Createx paint when painting hard surfaces. Apply direct to aluminum, plastic, wood, fiberglass & more. Cures to a hard coating over-which colors flow-out for a level finish.

Extra-fine, grain less, extra-smooth powders designed to mix with clear or transparent bases to create a variety of special metallic effects. Available in various shades of gold, copper, aluminum, bronze and brass pigments. Since the painting contractor can choose the medium he wants to use with the powders, he then can also control the unique patina and other effects created. Powders give the most possible control over the end result.

Can be mixed into clear mediums. Generally one pound per gallon.

House of Kolor Striping & Lettering enamels are specially designed for striping, lettering, and airbrush artwork. They feature high pigmentation, low solids for a minimal edge, and long open time. Apply over existing finishes or topcoat for a smooth, durable finish.

Striping catalyst adds gloss and durability when clear coatings are not used. Mix only amount of paint that will be used within 3 hours. 8 parts House of Kolor urethane striping enamel to 1 part catalyst.

Ronan Enamels

Ronan's Outdoor Bulletin Enamels are high quality, high gloss, lead-free paints specially formulated for use on commercial signs, billboards and murals. Preferred for large-scale projects, Bulletin Enamels are ideal for painting backgrounds, lettering copy and graphics. One-coat coverage, superior flow and easy cut in make this fast-drying paint system extremely user friendly. Vibrant color and extreme high gloss produce a dazzling, weather resistant finish. Use on all types of wood, masonite, masonry and metal surfaces.

Japan Colors are finely ground, lead free, flat, quick drying, paste colors. This traditional product has a wide range of graphic and professional artist uses. They are used by sign painters as a fine lettering paint when a flat finish is desired. Also used for a variety of decorative applications such as lettering, striping, faux finishes stenciling or for making glazes and stains for antiquing or graining. Used extensively by specialty painters and scenic artists for aging and glazing. They are ideal toners for flat paints and may be added to oil based gloss paints to create a semi-gloss finish. Dry Time: @70 F; 50% Relative Humidity. Dries to touch - 1 hour; to handle: 2 hours; to recoat -8hours, full cure - 24 hours. May take longer to dry under humid conditions.

Paint Accessories

Tack Rags Gerson $1.25 each $11.75 per dozen $127.95 per 144
removes dust & particles, 12” x 20” sheets

Paasche Airbrushes

H-3L Airbrush $49

Single Action - External Mix - Siphon Feed Airbrush features a chrome plated body for durability. Includes the size 3 airbrush which allows the H airbrush to be used in a wide range of application. The H single action allows the user to achieve fine lines down to 1/16 inch and wider patterns of up to 1-1/2 inches. It simple and easy to use & requires very little practice compared to double action models. The best uses are those requiring more basic spraying like solid coats, uniform lines or stencil work. Clean up is as simple as spraying your paint cleaner though the airbrush.

VL Airbrush $59

Double action-internal mix siphon feed airbrush. Paasche model VL features handcrafted construction of machined brass, polished & chrome plated. Components are made from nickel silver, needles are stainless steel, the packing is teflon and the handle nylon. **Pressures:** 20lbs for stipple & granulated effects. 30lbs for medium consistency watercolors, inks & dyes. 35lbs for heavier fluids, reduced lacquers & paints.

VL Airbrush Set $95

- VL Airbrush with holder & wrench
- 6ft hose
- needles sizes 1 & 5
- tip sizes 1 & 5
- 2 one ounce bottles
- 1 quarter ounce cup

Bottles

VL-½ oz glass bottle w/top & siphon	$5.75

VL-191A rocker assembly	$8.95
⅛" airline hose to ¼"NPT brass adaptor	$2.95

White Bristle

White Bristle Fitches are lettering brushes best suited for outdoor work such as walls, bulletins and rough surfaces.

size	4055 Mack White Bristle (long)	4090 Mack White Angular
1/4"	$4.50	$2.85
1/2"	$7.55	$4.15
3/4"	$10.70	$5.50
1"	$12.65	$7.95

4055 This 100% pure white hog bristle fitch is cup chiseled to a straight edge. This is a lettering brush, but because the bristles are longer, it can also be used for outlining. This brush is best suited for outdoor work such as walls, bulletins and rough surfaces.

4090 This 100% pure white hog bristle angular fitch is good for awning work. Sign painters also find it easier to use an angular brush when working on a wall or upright surface. It is good for outdoor work (awnings, walls, bulletins and rough surfaces). This brush is not chiseled.

Soft Fitch

Soft Fitches are used in lettering paints for layout, outlining, pictorial & tight work.

size	4039 Mack Soft Angular
1/4"	$6.95
1/2"	$10.75
3/4"	$21.65
1"	$28.85

4039 Soft Russian sable hair brush shaped with an angular chiseled edge for those who prefer to work with a sharper point. Used in lettering paints for layout, outlining, pictorial & tight work.

Flat Truck

Flat truck brushes are normally used for larger lettering and production lettering. They can also be used as a fill-in brush and an outliner for large letters. The long hair length allows the brushes to carry a lot of paint. Flat truck brushes are suitable for most surfaces.

size	162 Mack Golden Taklon like sable, for water	2962 Mack Blue Squirrel & Synthetic Hair, for oil or water
1/4"	$3.85	$5.65
3/8"		$6.95
1/2"	$5.50	$8.60
3/4"	$9.25	$14.50
1'	$12.60	$23.25

Wipe-out Tool 2240

Wipe-out tool can pull or push the paint away on smooth surfaces to make a perfect edge or corner.

$8.25

Lettering

The brown quill is best suited for smooth surfaces such as glass or automotive surfaces. Brown Quills are slightly softer than the grey quill. The grey hair has more snap than the brown. It is used for general commercial work such as signs, truck lettering, boats, etc. The grey hair is more durable than the brown, and this brush is suitable for lettering on most surfaces.

Mack Sword Series 20	da Vinci Kazan	Mach One 1010 Sword	Mack Sword Series 10	Mack-Lite Sword	Germany Sword 2223
Series 20 squirrel hair stripers are lacquer and enamel resistant , excellent for auto body touch-up and pinstriping. Tied with green thread.	Formally Cosmos, this sword brush is made of pure Kazan squirrel hair with the traditional extra short handle.	Squirrel hair with brass ferrule and short round maple handle. This is a remake of the original popular Grumbacher Mack One sword.	Series 10 100% unmixed blue squirrel hair stripers is hand crafted and shaped as it was many years ago. Tied with blue thread.	The new striper with less belly. The shape is similar to the "old Dominican," which was discontinued several years ago. Made with kazan squirrel hair and bound with a brass ferrule.	Pure squirrel hair in lacquer resistant setting with brass wound ferrule. German craftsmanship.

Hanson King 13	Kafka Longliner sword style	Mack XCaliber	Bobbo-Mack Super Quad	Kafka signature series	Capsule Striper
This USA handmade brush is a collaboration between Todd Hanson & Andrew Mack. It has 100% unmixed blue squirrel hair with more taper than a traditional pinstripe brush.	The unique design of the combination synthetic and natural fibers enhance the flow of palleted paints with great control and length of line.	What makes this sword brush special is it's short hair length allowing greater control for intricate designs as well as long lines. Each brush packed in it's own tube.	This 4 purpose brush has fine blue squirrel & black synthetic hair for scrolling, short stripes, small signatures and script lettering. Hold brush 65º-85º to surface using ¼" to ½" of the tip.	Most similar to a very long liner. Allows tight radius curves without brush rotation and flareout. Best used at angles between 50 and 80 degrees to work surface.	This gold ferrule & capsule striper is made for traveling out of 100% blue squirrel and easily tucked into a pocket for stripers on the go. 1" hair length with extremely small belly.

The Beugler Pinstriping Tool

The Beugler Striper makes pinstriping and detailed paint lining on any surface remarkably simple, and it's easy to use. The Beugler tool is not gravity fed which enables paint to flow in any position, is safe and non-pressurized, does not require tape for clean edges, and eliminates stick-on vinyl tape and paint brushes. Stripe from fine 1/64" to broad 1/2".

Professional Kit

Professional Kits comes complete with all seven standard stripe sizes, paint barrel, guides, cleanup brush and instruction book. $185
